

CORRIDOR ZONING DISTRICTS

SC – SUBURBAN CORRIDOR

The SC district is intended to provide moderate- to high-intensity commercial, office, and retail uses along high-traffic corridors. The SC district provides elevated building and landscape design, buildings oriented to the street, and appropriate buffering from adjacent neighborhoods. While the SC district is primarily auto-oriented, it provides a safe environment for pedestrians and cyclists.

HC – HIGHWAY CORRIDOR

The HC district is intended to provide high-intensity commercial uses along the City’s busiest and most visible thoroughfares. The HC district applies to areas along highly visible commercial corridors in the City where elevated design and aesthetic qualities are desired. While the HC district is primarily auto-oriented, it provides a safe environment for pedestrians and cyclists.
