

## OTHER NONRESIDENTIAL ZONING DISTRICTS

### GO – GENERAL OFFICE

The GO district is intended to provide locations for a variety of workplaces and complementary uses. Primary uses include office and research and development and related supporting uses. The GO district provides area for flexible office space to encourage the establishment of research and development enterprises, start-ups, and opportunities for business innovation. This district applies to areas throughout the City that are in close proximity to commercial use areas and employment hubs.

### LI – LIGHT INDUSTRIAL

The LI district is intended to provide locations for a variety of light industrial and employment uses such as light manufacturing, assembly, fabrication, warehousing and distributing, indoor and outdoor storage, and a wide range of supporting commercial uses and activities. The LI district provides a variety of transportation options for access including transit, bicycle, and pedestrian facilities. The LI provides appropriate transitions to surrounding uses and lower-intensity districts, and is sensitive to the adjacent built and natural context.

### HI – HEAVY INDUSTRIAL

The HI district is intended to provide locations suitable for development and operation of indoor and outdoor industrial, distribution, and manufacturing uses. The HI district applies to areas primarily west of Highway I-35 W near the Denton Enterprise Airport<sup>386</sup> that supports the most intense industrial uses and may require access to major rail, truck, or aircraft shipping facilities. The HI district applies to areas that can accommodate the intensity of uses while also being sensitive to the adjacent built and natural context.

### PF – PUBLIC FACILITIES

The PF district is intended to provide adequate lands for public and quasi-public community uses and services, including but not limited to fire stations, schools, libraries, community centers, hospitals, civic buildings, open space, parks, utilities, and other public-related facilities.
