The City of Denton has instituted a site plan review process. For all new buildings or building additions over 1,000 square feet, the applicant must submit for a Site Plan through the Planning Division and complete the first round of reviews before an application for a building permit may be accepted by Building Safety for review. If you should have any questions concerning Site Plans, please feel free to contact the Planning division at 940-349-7716.

- Property Lines and dimensions
