

Standard Offer Incentive

Program Participant

The City offers incentives for commercial customers that are interested in making energy efficiency upgrades to their facility to reduce their peak demand by a minimum of 50 kW. Standard Offer Incentive (SOI) participants must have an electric account served by the City.

Upgrades must be pre-approved in order to qualify for the rebate. Participant must submit written permission for the City to discuss their account and energy consumption with the installer. Only City customers in good standing will be eligible to receive the rebate.

DME does not endorse any product, service, individual or company. Selection of a registered installer/contractor to perform work is the sole decision of the program participant. Any list of registered installers/contractors represents those companies who have registered themselves with DME. There is no work guarantee or warranty, expressed or implied, as to the quality, cost or effectiveness of the work performed by the contractor, employees or subcontractors.

Acceptable projects may include: Lighting retrofit, HVAC upgrade, Motor replacement

Unacceptable projects include those that: Rely on customer behavior, Involve cogeneration and demand management including generation from renewable, Have a negative impact on the environment, Have no capital investment, Plug loads

Installers

Installer that installs the prescribed and approved energy efficient upgrades does not need to be registered as a DME Authorized Installer. Installer must submit the application along with estimated cost, estimated demand savings, and method of kW savings calculations. Installers must also submit detailed information for each project including scope of work, specific equipment being removed and installed. DME will review the application and supporting documents for acceptance.

GreenSense Incentive Program Manual

Standard Offer Incentive

The City is offering commercial customers \$125.00 per kilowatt (kW) reduced from peak demand, not to exceed 50 percent of total project cost.

- The peak demand reduction must be a minimum of 50 kW
- Replaced equipment must be disposed of and cannot be put back into service
- The energy efficiency upgrade must be in service for at least ten (10) years
- Equipment must meet all codes and permitting requirements
- Lighting only project will not count for more than 65 percent of incentive

Application Process

- The following must be submitted to the Program Administrator for evaluation and acceptance:
 - Standard Offer Incentive Form
 - Proposal showing estimated cost, estimated demand savings, and method of kW savings calculation
- Customer will receive confirmation that the application was received via e-mail
- City will review the application to determine if the project will be accepted
- Customer will receive a LOI if the project has been accepted
- Customer will be contacted to schedule an initial inspection
- Within 30 days of the completion of the project, the customer will contact the Program Administrator to schedule a final inspection. This inspection is strictly for the purpose of qualifying for the rebate, not to take the place of Building Inspections or internal quality control
- Following final inspection, demand reduction will be verified
