**RE: Sanitary Sewer Improvements in Your Neighborhood**

Dear Resident or Property Owner:

We are contacting you to inform you that on **July 1**, the City of Denton will begin construction to complete sewer main improvements and install a manhole on **Wainwright Street and Prairie Street** as part of the ongoing Pecan Creek Tributary 4 (PEC 4) Drainage Improvement Project. Weather conditions and contractor scheduling may impact the plans, but this phase of the project is scheduled to be completed by **Thursday, August 1**.

Here's what to expect during construction:

- Atmos Energy will be in the area completing utility line relocations before City of Denton crews begin construction.
- To allow crews to safely complete the improvements Wainwright Street will temporarily close and E. Prairie Street will have temporary intermittent lane closures. Signage will be posted to direct motorists through a detour (see map on back).
- The **E. Prairie Street (S. Locust Street to S. Bell Street)** intermittent lane closures will be in the eastbound lane at the E. Prairie Street and Wainwright Street intersection. The **Wainwright Street (E. Prairie Street to E. Highland Street)** temporary street closure will be in the northbound and southbound lanes (see map on back).
- While crews are present, there will be limited on street parking. Signage will be posted to alert resident of the construction and parking restrictions.
- Crews will accommodate local business and property owners in the area to maintain access during the improvements.
- Residents can directly notify crews regarding property access by speaking directly to them on-site or call Utilities Dispatch at (940) 349-7000 (choose option 3).
- The City of Denton requires any issues regarding construction to be reported within 30 days of the project's completion.

Transportation and infrastructure improvements are important to ensuring that our streets remain accessible and safe. We thank you for your patience, and we hope that you will enjoy the improvements when the project is completed. **If you have any questions or would like to discuss the project, please contact Fernando Torres, at (940) 268-9726, or at [Frenando.Torres@cityofdenton.com](mailto:Frenando.Torres@cityofdenton.com).**
