Cooper Creek Linear Park: Cooper Creek Linear Park

Barrier: 1

State and local governments have an obligation to make their programs and services accessible to persons with disabilities. This may or may not require the alteration, addition or construction of existing facilities which predate The Americans with Disabilities Act (ADA) of 1990.

Under the Code of Federal Regulations Section 35.151(b)(2) State and Local Government Title II entities may provide programmatic access where alterations to existing facilities would result in undue financial and administrative burdens.

For Example, A public entity has six courtrooms in two existing buildings and determines that only three of those courtrooms and the public use and common use areas serving those courtrooms in one building are needed to be made accessible in order to satisfy its program access obligations. The entity must comply with 2010 Standards unless compliance would result in undue financial and administrative burdens and must take other actions that would not result in an undue financial burden to ensure access to persons with disabilities. This may include the scheduling of the various types of cases, hearings etc. in accessible courtrooms and relocating them where necessary to accommodate persons with disabilities. Having a defined program and effective communication process in place to ensure the public and employees can request accommodations is necessary to ensure equal access to the county's court system.

Program access is not part of this evaluation and this information is being provided as an advisory only.
