

# ALL-WAY CROSSING

The City of Denton is implementing an all-way crossing pilot program on the four corners of the Square to provide safe and accessible crossings in one of the city's most pedestrian-heavy areas.

An all-way crossing is a traffic signal movement that temporarily stops all vehicular traffic, thereby allowing pedestrians to cross an intersection in every direction safely at the same time.

## All-Way Crossing Locations:

- W. Oak and N. Elm St.
- N. Elm and W. Hickory St.
- W. Hickory and N. Locust St.
- N. Locust and W. Oak St.
